

Notice of available unclaimed capital credits
for members who had service with
Salem Electric during the years 2004–2006.

 **SALEM
ELECTRIC**
AN ELECTRIC COOPERATIVE

Notice of Available Refund of Salem Electric Capital Credits

Public Notice of Unclaimed Capital Credits

Salem Electric wants to return unclaimed money!

Who are we looking for?

We are looking for people who received service from Salem Electric in 2004, 2005, and 2006 and have unclaimed capital credits available to claim.

The names of members who have unclaimed capital credits are listed in a special insert within the Statesman Journal newspaper published March 20, 2024. The list is also posted to our website at SalemElectric.com and available in our office located at 633 7th Street NW, Salem, OR 97304.

If your name appears on the list, or if you are the legal heir of a deceased member named on the list, you may be eligible to claim the credits.

The Salem Electric Board of Directors has declared that the capital credits will be forfeited and retained by Salem Electric unless claims to payment are made in writing by the persons or entity legally entitled thereto.

Claims must be received by Salem Electric, P.O. Box 5588, Salem, OR 97304, on or before December 5, 2024.

Contact Salem Electric to initiate a claim.

Call: 503-362-3601

Hours: 7:00 a.m.–5:30 p.m.
Monday–Thursday

Email: SE@SalemElectric.com

Website: SalemElectric.com

What is Salem Electric?

Salem Electric is a not-for-profit electric utility, providing electricity to over 18,000 members in parts of Salem and Keizer. Unlike investor-owned utilities, electric cooperatives provide electricity to their consumer-members at cost. Salem Electric delivers reliable, renewable, 96% carbon-free electricity to members throughout a 17.5 square mile service territory.

What are capital credits?

Since Salem Electric is a not-for-profit electric cooperative, at the end of each fiscal year, if revenues exceed expenses, margins (operating revenue less operating expense) are allocated to members as capital credits based on the amount the member paid to Salem Electric for electric service during the year. Capital credits are used by the cooperative for working capital, new construction, infrastructure maintenance, debt reduction, and other capital purposes approved by the Board before being returned to members. To date, Salem Electric has paid over \$38,000,000 in capital credits to its members.

When does Salem Electric refund capital credits?

Each year the Board determines whether the current financial condition of the cooperative allows for capital credit refunds. Historically, the Board has returned 5% of the outstanding credits each October, refunded in order of seniority after approximately 20 years. Members that move from Salem Electric's service area are still able to claim the credits they earned.

How do I make a claim?

This publication provides a list of Salem Electric members who had service during the years 2004–2006 and have unclaimed credits available. Contact Salem Electric at 503-362-3601 during business hours to initiate a claim. The credits can be claimed by the individual or entities legally entitled or their heirs. Claims must be received by Salem Electric, PO Box 5588, Salem, OR 97304, on or before December 5, 2024.

This publication is posted online at SalemElectric.com. Paper copies are distributed in the local newspaper and are available at Salem Electric, 633 7th Street NW, Salem, Oregon.

Why Dams Are Important

Hydropower is necessary to meet the energy needs of the Northwest, and zero carbon emissions are generated by hydropower production.

85% of the energy distributed by Salem Electric comes from carbon-free hydropower supplied by the Bonneville Power Administration.

Climate change is the single greatest threat to salmon and is worsening conditions of the Pacific Ocean.

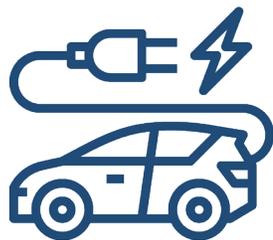

In 2022, customers of the Bonneville Power Administration (BPA) funded

\$932 million

in fish and wildlife protection. Since 1978 the total cost of BPAs effort to protect fish and wild life has exceeded

\$17 billion.

Clean energy and electric vehicles are a perfect match. Each charge comes with a low cost, low carbon footprint thanks to abundant hydropower.

This notice of available refund can also be viewed online at SalemElectric.com/capital-credits.
